1976 Honda CB550 Four (for North America Japan) specs review

In the UK Honda kept selling 500/4s until 1975 and didn ' t include the 550/4 in its catalogue until 1976. The range began with the CB550F Super Sport, a machine popular with British buyers. This had a single colour paint job, a bigger tank, lower bars and a four-into-one (4-1) exhaust system, mirroring the popular CB400/4.

Honda CB550 F1 1976 - YouTube

The Honda CB550 was probably the best balanced Honda of the seventies. It did not have the awe-inspiring power of the legendary CB750, but it had a stiffer frame and was a lighter and more nimble motorcycle. We might describe the Honda CB550 as Honda ' s " Goldilocks bike " — the CB750 was too big and powerful for many, the smaller bikes such as the CB360 and CB400 were too small (and the ...

"Designed to aid the non-professional motorcycle collector in sorting through the pros and cons of buying and restoring a particular Honda motorcycle"--Cover p. [4].

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America ' s premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede ' s wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid ' s, handle like a pro ' s. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension ' s condition. He outlines testing procedures that will help you gauge how well you ' re improving your suspension, along with your riding. And, if you ' re inclined to perfect your bike ' s handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

DIVA photographic chronology of some of the fastest, most stylish, and most individualized bikes in motorcycling history./divDIV /divDIVOriginally used as a slur against riders who used hopped-up motorcycles to travel from one transport caf é to another, " caf é racer " describes a bike genre that first became popular in 1960s British rocker subculture—although the motorcycles were also common in Italy, France, and other European countries. The rebellious rock-and-roll counterculture is what first inspired these fast, personalized, and distinctive bikes, with their owners often racing down public roads in excess of 100 miles per hour (" ton up, " in British slang), leading to their public branding as " ton-up boys. " Caf é Racers traces caf é racer motorcycles from their origins in the mid-twentieth century all the way into modern times, where the style has made a recent comeback in North America and Europe alike, through the museum-quality portraiture of top motorcycle photographer Michael Lichter and the text of motorcycle culture expert Paul d ' Orl é ans. Chronologically illustrated with fascinating historical photography, the book travels through the numerous ever-morphing and unique eras of these nimble, lean, light, and head-turning machines. Caf é Racers visually celebrates a motorcycle riding culture as complex as the vast array of bikes within it./div
