KewActiveMinds(TM) Workbooks and Practice Worksheets are immersive self-study tools that encourage and stimulate your child's mind, while at the same time letting them have fun learning! Each section is devoted to a specific task, with a structured format to avoid distractions and short enough problems to hold attention. Very easy to use and understand to teach your child with simple, clear lessons and easy to follow exercises presented in an interactive way. A fun and challenging approach to plant the seeds of eagerness to learn and to keep your child's mind sharp. Use daily, a page or two, to keep your child engaged, not taking too long so children don't get bored while building a child's capabilities and confidence! The Books a great addition to regular learning routines and a good method for parents to cope with distance learning. BENEFITS Through completing questions we hope to enhance your child's comprehension, active use and development of: • REASONING • PROBLEM SOLVING • COMMUNICATION • CONFIDENCE • MOTIVATION EASY TO USE & ADDITIONAL RESOURCES The books are designed to be easy to use, with sequentially numbered Questions and Answer Keys at the end of each Part to allow you to flip back and forth quickly. QR Codes for your smartphone take you to Parent Resources that provide additional support! **BONUS CONTENT 1.** Success Tracking Sheets - Recording sheets are included to help track a child's progress through the Book and for individual sections, to show how they progress over time. 2. Parts Quizzes - Mixed question quizzes are included at the end of every Part to show how well your child has grasped the concepts throughout the material. 3. Downloadable Resources - You can use clear overlay sheets to preserve the practice worksheets and download additional Tracking Sheets as a means of cost-effective use of learning resources.

NEW YORK TIMES bestselling author Greg Tang takes on the times tables, teaching kids innovative ways to multiply numbers and derive answers **WITHOUT** memorization. Four is very fast to do when you multiply by 2. Here's a little good advice -- please just always double twice! **BEST OF TIMES** gives kids an intuitive understanding of multiplication, encouraging them to arrive at answers on their own rather than memorizing the times tables. A child who can multiply by two, for instance, can multiply by four and even eight! Likewise, times six builds on times two and times three. With his common-sense approach, Greg Tang encourages kids to solve problems creatively, building both their skills and their confidence.

100 days of division problems. Discover the difference a couple minutes of practice can make. These are reproducible practice sheets to help students learn their division facts and recall them with fluidity. This book focuses on digits 0-12. (Answer key included in the back of the book).
