**Advanced educational psychology (Book, 2002) [WorldCat.org]**

The main purpose of the Journal of Educational Psychology ® is to publish original, primary psychological research pertaining to education across all ages and educational levels. A secondary purpose of the Journal is the occasional publication of exceptionally important theoretical and review articles that are pertinent to educational psychology.

This revised and expanded edition is a sequel to the first edition which was warmly received by the student and teaching community for its indepth analysis and refreshing approach to the subject. Psychology of Individual differences Transfer of Learning or Training Emotional Development and Emotional Intelligence Learning Disabilities and Learning Disabled Children Beginning with an introduction to the nature and scope, and the various schools of psychology, the book dis-cusses the systems propounded by Freud, Adler, Jung and Piaget, taking into account their critical importance to the subject. It then focuses on the psychology of growth and development, psychology of individual differences, motivation, attention and personality, with an emphasis on the individual's attitude towards learning, and the factors influencing learning. The text also elaborates the nature and theories of learning and the aspects of memory such as remembering and forgetting. The cognitive aspect, i.e. intelligence, and vital topics like creativity and the psychology of thinking, reasoning and problem-solving have been accorded due prominence. A detailed discussion on exceptional children and learning disabled children together with the educational measures for overcoming such disabilities is also included. The text concludes with an important aspect of human behaviour, namely, adjustment. Interspersed with examples, illustrations and tables, this text is ideally suited for postgraduate students of education and psychology. It can also be profitably used by teachers, teacher-educators, guidance and counselling personnel, and administrators of educational institutions.

A harmonious blend of the theoretical and practical aspects of educational psychology, this student-friendly text provides a base for the understanding of the subject. The book discusses the various aspects of growth and development, specifically during childhood and adolescence, and accords due importance to the cognitive aspect of human behaviour with elaborate text on intelligence, creativity, thinking, reasoning and problem-solving. Besides maintaining a logical progression of topics, the author has interspersed the text with examples and illustrations to provide an in-depth analysis of the subject matter. The book is ideally suited for the B.Ed. and B.A. (Education) courses but can also be a valuable reference for teachers, teacher-trainees, and practising counsellors at various levels of school education. KEY FEATURES • Cogent and coherent style of writing • Assignment problems and sample tests at the end of various chapters • Wide range of examples and over 50 illustrations to support and explain the topics discussed

Human behaviour is quite complex. Success in interpersonal relations depends on a proper understanding of it. The present book provides an introductory course for this very purpose. It studies human behaviour in its various aspects: physiological, emotional, mental and social. The book will be useful to students of psychology of different boards of education and universities. For general reader, it would serve as a workable base for further study of the subject. The subject matter has been presented in a simple, informative style so that the reader may be able to understand essential terminology, facts and concepts about human behaviour.

This book provides valuable insight into the nature and the background of the subject of Psychology. Designed basically as a textbook for general psychology courses of Indian universities, it will also prove useful to those working in the disciplines of sociology, education, social work and social sciences. The subject matter in the text has been presented in such a way that it can be easily grasped by a beginner and appreciated by an advanced reader.

The book comprising the various aspects relating to the psychology of learning and development of a child furnishes proper understanding to its readers for helping the growing children in their thoroughgoing development. The subject-matter, dexterously divided into 35 chapters and organised in a simplified and logical manner, first explicates educational psychology, development of the growing children, process of learning, intelligence, aptitude and attitude, and then expounds on psychology of individual differences, learning styles, learning disabilities, creativity, personality, mental health, adjustment, guidance and counselling, and ultimately, social groups and group dynamics. The book is primarily designed for the post-graduate students of education. KEY FEATURES • Presents comprehensive and practicable coverage of the topics • Discusses theories related to a number of aspects and phenomena • Includes some important concepts such as Havighurst's developmental tasks, emotional intelligence, social intelligence, spiritual intelligence, constructivism and constructivist learning, achievement motivation, learning disabilities, theories of creativity, and so on • Offers engaging language and user-friendly mode of discussion • Adequately illustrated with examples, figures and tables • Comprises chapter-end summary for quick glance of the concepts LEARNING RESOURCES Teaching resource is available at https:// www.phindia.com/Psychology-of-Learning-and-Development-by-Mangal-Mangal for adopting faculties, which comprises quiz questions, chapter-wise PPTs and bibliography, and lecture video.

This new revised edition provides an updated workable base for the understanding of basic concepts of abnormal behaviour and abnormal psychology. Keeping in mind the latest developments in the field, it incorporates all the needed changes and modification in the book for meeting the requirement of the syllabi of the courses related to the subjects Abnormal and Clinical Psychology, in degree classes of the Universities and Higher Institutions of our country. The book is also helpful for those who opt Psychology as an optional paper for their Indian or Provincial Civil Services and other competitive examinations. Key Features: A through discussion on the concept, nature and background of abnormal behaviour and abnormal psychology by taking in to consideration different types of abnormalities and disorders of human behaviour along with their possible treatment measures; Adding four new chapters entitled as Attention-Deficit/Hyperactivity Disorder (ADHD) and Autism; Elimination and Eating Disorders; Sleep Disorders; Old Age or Degenerative Disorders; A through revision of the Chapter Classification of Mental Disorders specifying a due place to the discussion of DSM IV-TR(2000), DSM-5 (2013), ICD-10 (2010), and a brief commentary on the coming ICD-11; Adding a number of useful topics in the existing chapters like Conflict resolution, Stressors, Stress cycle, Effects or Outcomes of Stress, New varieties of Obsessive-compulsive behaviour disorders (such as Hoarding disorder, Hair pulling disorder, Skin pulling disorder, and Body dysmorphic disorder), and Cognitive-behavioural therapy for the treatment of abnormal behaviour etc.

The book thoroughly explains various theories and concepts applied in the field of learning and teaching. It orderly describes effective techniques and methods by using descriptive analytical approach and methodology. It covers in the intelligible form a wide spectrum of information inclusive of that required for the compulsory paper "Learning and Teaching" incorporated in the curriculum of B.Ed. courses of various Indian universities in accordance with the guidelines of National Council for Teacher Education (NCTE). The book discusses the nature and importance of learning theories propagated by behaviourists, cognitivists and humanists. It also focuses on pedagogy, andragogy, models of teaching, tasks and process of learning, strategies of teaching, learning styles, concepts of e-learning and m-learning in the applications of ICT. KEY FEATURES : • Full coverage of syllabi of all the Indian universities • Diligently arranged chapters for the sequential learning • Comprehensive explanation with illustrative examples and case studies • Explicit figures, tables and diagrams for easy interpretation • Summary at each chapter-end for quick review The book is primarily intended to B.Ed. students. Besides, the text is also of immense value to the students of B. EL Ed., M.Ed., MA (Ed.), M.Phil., and teachers, training professionals and counsellors.

Despite ongoing economic recovery and improvements in global financial stability, structural weaknesses and vulnerabilities remain in some important financial systems. The April 2011 Global Financial Stability Report highlights how risks have changed over the past six months, traces the sources and channels of financial distress with an emphasis on sovereign risk, notes the pressures arising from capital inflows in emerging economies, and discusses policy proposals under consideration to mend the global financial system.
