Comments: Hi, I have a 2002 BMW E39 530i which has a misfire Fault code- "F0 MISFIRE, CYLINDER 3" during cold starts and once the engine has reached its normal operating temp if the engine is switched off and re-started then the misfire is not there any more. But once again the engine misfire comes back when the engine is in idle for about a minute.

The BMW E39 is the fourth generation of BMW 5 Series, which was manufactured from 1995 to 2004. It was launched in the sedan body style, with the station wagon body style introduced in 1996. The E39 was replaced by the E60 5 Series in 2003, however E39 Touring models remained in production until May 2004. The proportion of chassis components using aluminium significantly increased for the E39, and it was the first 5 Series to use aluminium for all major components in the front suspension or any
