Databases Exploratory Image Databases: Content- based Retrieval...

How do you use "data mining" to search for an image if you do not have "key words" to search?

Exploratory Image Databases introduces the idea that it is possible to solve this

Online Library Exploratory

problem by merging database systems into a single search and browse activity called "exploration." Exploratory Image Databases is one of the first single-author books that unifies the critical emerging topic of image databases. A new approach to image databases, the work

Databases is one of
the first single-author
books that unifies the
critical emerging
topic of image
databases. A new

Online Library Exploratory

approach to image databases, the work is divided into four central parts:

introduction to the problems that image database research must solve; computer vision and information retrieval techniques; image database issues; and interface and engines for visual searches.
