Inspired by Psalms 5:3, *When I Rise I Worship* is a prayer and worship devotional and journal. It is designed to assist those who have struggled to develop and maintain a daily devotional life. Whether this struggle is due to lack of time, limited time, mismanagement of time, or just not knowing how to get started, this devotional is just the tool you need. Its format is user-friendly and time-conscious while still providing daily relatable exhortations and applicable nuggets from the Word of God. It eliminates the need for multiple books by providing journal pages to jot down your notes and prayers. To keep you connected as you wind down for the weekend there are 4 short and targeted times of scriptural study and reflection called "Weekend Worship and Study".

Tackling a growing challenge in today's schools, experienced educators Lineburg and Gearheart present an honest picture of how poverty affects students, families, and the school community at large. They offer a host of practical applications that can be used in every school district in America to meet those challenges head-on! Written for preK–12 teachers, leaders, and staff, *Educating Students in Poverty* provides essential strategies to help socioeconomically

disadvantaged students achieve academic and lifelong success. Backed up with firsthand experiences and relevant research, these proactive instructional and administrative approaches cover a variety of topics, including: Advocating for underprivileged students Improving school climate and culture Engaging and communicating with families Instructional techniques and discipline issues Student health and safety This book is a must-have resource for any educator whose goal is to maximize the learning potential of every student.

In a marketplace that demands perpetual upgrades, the survival of interactive play ultimately depends on the adroit management of negotiations between game producers and youthful consumers of this new medium. The authors suggest a model of expansion that encompasses technological innovation, game design, and marketing practices. Their case study of video gaming exposes fundamental tensions between the opposing forces of continuity and change in the information economy: between the play culture of gaming and the spectator culture of television, the dynamism of interactive media and the increasingly homogeneous mass-mediated cultural marketplace, and emerging flexible post-Fordist management strategies and the surviving techniques of mass-mediated marketing. Digital Play suggests a future not of democratizing wired capitalism but instead of continuing tensions between "access to" and "enclosure in" technological innovation, between inertia and diversity in popular culture markets, and between commodification and free play in the cultural industries.
