The Harley-Davidson WLA is a Harley-Davidson motorcycle that was produced to US Army specifications in the years during and around World War II. It was based on an existing civilian model, the WL, and is of the 45 solo type, so called due to its 45-cubic-inch (740 cm 3) engine displacement and single-rider design. Model designation. The model number breaks down as follows: W : the W family of ...

~~Harley Davidson Service and Parts Manuals~~

Since the WLC was based on the WLA which was already being delivered to the US Army, Harley-Davidson only changed the last letter to indicate a variation on an existing model. The ' W ' shows that the motorcycle is equipped with a 45 cubic inch, side valve engine, introduced in 1937 and first used on the Model W bikes.

~~Harley Davidson WLA Workshop Service Repair Manual~~

Most parts of the book will be relevant for roughly 1940 or 1941 to 1952 as this is appears to have been a reprint of a WWII tech manual for the WLA. Engine sections as well as frame should be relevant for 1937 to 1940 as well. Wiring diagrams are for WLA or WLC models but that will still be somewhat relevant for a civilian model.

Based on the civilian WL model, Harley-Davidson's WLA ("A" for "Army") motorcycle was first produced in 1940. It would remain in production through 1945, and eventually over 90,000 weredelivered for use in all theaters of WWII. Like the WL, the WLA was equipped with a 45 cubic inch (740 cc) flathead high compression engine and arugged frame. Military modifications included blackout lights, fenders without traditional sides (to reduce mud clogging), an air cleaner to facilitate off-road use and easy maintenance, and a crankcase breather that enabled the fording of water obstacles. The motorcycle typically was also equipped with leg protectors, a skid plate, leather rifle or machine gun scabbard, an ammunition box, radio or luggage rack, and a windscreen. This U.S. Army technical manual TM 9-879 was created in 1943 for the men who operated and serviced the WLA in the field. In its pages you will find a description of the motorcycle, and information regarding its use and care.Originally classified "restricted", this manual was declassified long ago and is reprinted here in its entirety. Legal disclaimer: The name "Harley-Davidson" is a trademark of H-D Michigan, LLC and the Harley Davidson Motor Co., which reserves all rights to it.

The Harley-Davidson WLA was produced to US Army specifications during and around the Second World War. It was an adaptation of an existing civilian model, the WL, the 45 solo type, having a 45-cubic-inch (740 cm3) engine displacement and single-rider design. In 1944, the US War Department published this manual for troops ahead of entering the Second World War. In addition to a basic description of the motorcycle, and how to ride it, this manual contained all the technical information required for identification, use and care of the materiel. It is the essential guide for any owner, giving vehicle maintenance instructions for many technical issues, and no doubt saved many soldiers! lives out in the field.

This technical manual is published for the information and guidance of the using arm personnel charged with the operation, maintenance, and minor repair of this materiel. b. In addition to a description of the Harley-Davidson motor- cycle, this manual contains technical information required for the identification, use, and care of the materiel. The manual is divided into two parts. Part One, section I through section VI, gives vehicle operating instructions. Part Two, section VII through section XXV, gives vehicle maintenance instructions to using arm personnel charged with the responsibility of doing maintenance work within their juris- diction. c. In a11 cases where the nature of the repair, modifications, or adjustment is beyond the scope or facilities of the unit, the responsible ordnance service should be informed so that trained personnel with suitable tools and equipment may be provided, or proper instructions issued.

As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

"In addition to a description of the Harley-Davidson motorcycle, this manual contains technical information required for the identification, use, and care of the materiel. The manual is divided into two parts, Part One, section I through section VI, gives vehicle operating instructions. Part Two, section VII through section XXV, gives vehicle maintenance instructions to using arm personnel charged with the responsibility of doing maintenance work within their jurisdiction."

The Indian Motocycle Manufacturing Co. began producing motorcycles in Springfield, Massachusetts in 1901 and quickly became the world's largest manufacturer. While the Harley-Davidson WLA was the motorcycle of choice for the U.S. Army, during WWII Indian's Chief, Scout and Junior Scout models were drafted into service. This handbook for the Model 340 / 74 Military Chief was adopted by the Army in October, 1941. During WWII, Indian made over 33,000 motorcycles, but it emerged from the conflict in financial trouble. Production was seriously curtailed by 1949, and the company ceased operation in 1953. This original Indian maintenance handbook is an exact copy of the original 1940 edition. It's a wonderful asset for the collector, docent or fan.

"Motorcycle, Solo (Harley-Davidson Model WLA)" by United States. War Department. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

The Harley-Davidson WLA and other American military motorcycles performed crucial roles during the Second World War in the U.S. armed forces and other Allied armies worldwide. Liberator: The Harley-Davidson WLA in the Second World War for the first time tells the full story of how the U.S. Army and Marine Corps and other Allied armed forces used the Harley-Davidson WLA and other American military motorcycles during the war. The book traces the development of the WLA in 1940-42 from the civilian Forty-Five models of 1929-39, describes the evolution of U.S. Army and Marine Corps usage of motorcycles through the motorcycle-borne mechanized cavalry experiments of 1940-41, and addresses wartime use of motorcycles in each major type of U.S. Army unit (mechanized cavalry, armored divisions, infantry divisions, airborne divisions, military police, etc.) and in Marine Divisions, with detailed tables of organization and equipment for each. Moreover, Liberator: The Harley-Davidson WLA in the Second World War describes the use of the WLA, Indians, and other Harley-Davidsons in each Allied army that used them. It especially emphasizes their use by the Soviet Union, which was the largest user of the WLA, receiving more through Lend-Lease than the number used by the U.S. armed services. These countries include:- Soviet Union- Canada- United Kingdom- Australia- New Zealand- South Africa- India- Poland - France - Brazil- Iran- Republic of ChinaAlthough primarily focused on the Harley-Davidson WLA, the book also describes use of other Harley-Davidsons, Indians, and small motorcycles designed for airborne troops, in the U.S. armed services and other allied armies. These other models include:- Harley-Davidson WL- Harley-Davidson "Big Twins"- Indian 741, 640, 344, and 340- Cushman Model 53 scooter - Simplex ServicycleUnique human perspectives on the Harley-Davidson WLA and other American military motorcycles during the war come from the stories of several individual U.S. Army soldiers who fought on motorcycles, and the histories of a U.S. Army military police unit and a Red Army motorcycle battalion. These stories, several of them previously unpublished, are reminders of the men who once rode these machines during the war.This book will be of interest to enthusiasts of Harley-Davidson, Indian, and military motorcycles, and to military historians and preservationists worldwide.
