This book provides an in-depth analysis of the challenges, potential and theoretical possibilities of apps and considers the processes of change for education and home learning environments. Drawing together a diverse team of international contributors, it addresses the specific features, context of use and content of apps to uncover the importance of these tools for young children ' s learning. Apps, Technology and Younger Learners focuses on ways that apps support early years and primary school learning, connect various learning spaces and engage children in a range of edutainment and knowledge-building activities. In each chapter, the current state of knowledge and key research questions in the field for future study are identified, with clear messages provided at the end of each chapter. Focusing on empirical studies and strong theoretical frameworks, this book covers four key parts: Understanding the learning potential of children ' s apps; Key app challenges; Empirical evidence; Future avenues. This book is an essential guide for educators, post-

graduate students, researchers and all those interested in the advantages or challenges that may result from integrating apps into early education.

More than just a statutory compilation, New York Education Laws is the best way to keep up-to-date with the broad spectrum of laws impacting education in New York. With commentary on the latest laws by Thomas M. Hamilton, Esq., this volume provides readers with handy summaries of important caselaw, summaries of decisions of the Commissioner of Education, and summaries of new legislation. New York education laws are constantly in flux, and the new edition provides you with an efficient and innovative way to keep abreast of the latest changes. New York Education Laws is a compilation of the entire text of Education Law Titles I-VIII extracted from the New York Consolidated Laws, along with many other related statutes that touch on the administration of education in New York. It includes important topics such as school district organization, taxation and financial administration, special schools and instruction, and state and city colleges and institutions. Now, school principals, administrators, educational organizations, attorneys and state officials will have access to all education laws they need in one volume.

This book provides an in-depth analysis of the newest national American education fad, intended to replace the 2002 incarnation of the ESEA, No Child Left Behind. Zarra delves into the “ seeds ” that produced the Common Core Standards, as well as the groups involved in the political and corporate pressure to revamp America ’ s K-16 education system.
