Race and Ethnicity in the Modern World | JAPANsociology

The traditional definition of race and ethnicity is related to biological and sociological factors respectively. Race refers to a person's physical characteristics, such as bone structure and skin, hair, or eye color. Ethnicity, however, refers to cultural factors, including nationality, regional culture, ancestry, and language.

Ethnicity vs Race - Difference and Comparison | Diffen

Defining race. Modern scholarship views racial categories as socially constructed, that is, race is not intrinsic to human beings but rather an identity created, often by socially dominant groups, to establish meaning in a social context. Different cultures define different racial groups, often focused on the largest groups of social relevance, and these definitions can change over time.

Race (human categorization) - Wikipedia

The sociology of race and ethnicity is a large and vibrant subfield within sociology in which researchers and theorists focus on the ways that social, political, and economic relations interact with race and ethnicity in a given society, region, or community.
