Biker poetry was originally meant to be recited and found its way into performance, or slam, poetry, with readings conducted at every major biker rally. Today, the biker poetry movement is alive and spreading quickly in print form, not only in the US, but all around the world.

Adventure is always escapist and often utopian, yet we find solidarity with others and Kafkaesque existential rabbit holes within the words we use to celebrate high-flying escapades. Even when adventures are small in the cosmic scope, the terminology of thrilling exploits promotes a life lived at a high pitch. This go-to glossary for the philosophical explorer delves into these contradictions and insights through more than five hundred terms, from A-OK to zoom. Semiotician Joshua Glenn sourced terms from Shakespeare, military and biker jargon, hip hop and surfer slang, survivalist and gamer subcultures, comic books, extreme sports, and beyond to ask questions about meaning and selfhood. This diverting survey, paired with copious illustrations

This third instalment turns its lens to the language of risk, excitement, and journeying into the unknown, taking readers on their own semantic adventure.

the Director of the UN Global Climate Observing System in Geneva, David Goodrich returned home to the United States to find a nation and a people in denial. Concerned that the American people are willfully deluded by the misinformation about climate that dominates media and politics, David thought a little straight talk could set things right. As they say in Animal House, he decided that "this calls for a stupid and futile gesture on someone's part, and I'm just the guy to do it." Starting on the beach in Delaware, David rode his bike 4,200 miles to Oregon, talking with the people he met on the ultimate road trip. Along the way he learned a great deal about why climate is a complicated issue for many Americans and even more about the country we all share. Climate change is the central environmental issue of our time. But A Hole in the Wind is also about the

people Dave met and the experiences he had along the way, like the toddler's beauty pageant in Delaware, the tornado in Missouri, rust-belt towns and their relationship with fracking, and the mined-out uranium ghost town in Wyoming. As he rides, David will discuss the climate with audiences varying from laboratories to diners to elementary schools.

Beautifully simple, direct, and honest, *A Hole in the Wind* is a fresh, refreshing ride through a difficult and controversial topic, and a rich read that makes you glad to be alive.
