Sproul as he shares his passion for God and excites the reader to dig deep and know the God who is alive, who is real, who relates to each one of us in our lives.

Political and religious leaders-past and present-have shaped the thinking of society to see blacks and people of color as inferior. As a result, cultural, social, political and religious groups devalued the importance of blacks. This negative mindset has existed for centuries in the Western hemisphere and has escalated to even higher levels today. Do Black Lives Matter to God? takes us on a historical journey through the Bible to illuminate how God sees black people and people of color. This book challenges all educators who have disparaged and ignored the exceptionalism and existence of blacks in the Bible as a way to justify their oppressive beliefs. Through Do Black Lives Matter to God? you will understand how black lives in scripture became a catalyst for the evolution of all lives. When all people can live the reality of Jesus' commandment to "Love one another as I have loved you," we can truly live a life-black or other-that is reflective of Christ.

Cassian taught that real intimacy with God in prayer demands renouncing one's former way of life, the thoughts belonging to that former way of life, and one's very idea of God. In Thoughts Matter, Mary Margaret Funk focuses on the second of these: renouncing the thoughts belonging to one's former way of life. Her eight chapters focus on different thoughts'-food, sex, anger, dejection, acedia (profound weariness of the soul), vainglory (taking credit for good actions), and pride. Funk explains well how failure to control these thoughts can undermine our spiritual life, and she instructs readers on how effectively to overcome these thoughts and to focus instead on thoughts in harmony with God's will. The result is an experience of joy, hope, and freedom from enslavement to our appetites. Readers will come away enlightened, strengthened, and inspired to delve more deeply into a life of intimacy with God.
